The Complete Hospital Operating System

End-to-end integrated platform for hospital operations — from registration to discharge, billing to analytics — powered by AI for Indian healthcare.

1 SEAMLESS PATIENT JOURNEY

End-to-End Flow

Registration → Token → Consult → Diagnostics → Pharmacy → Billing

Registration & Queue

- **Rapid UHID** — 30-second patient onboarding
- **Digital KYC** — Aadhaar & document upload
- **Emergency Mode** — Expedited critical registration
- **Live Queue** — Real-time OPD display screens

Connected Care

- **Digital Rx** — Template-based prescriptions
- **Patient 360** — Full history during consult
- **Instant Sync** — Lab, Radiology, Pharmacy
- **One-Click Billing** — OP & IP auto charges

ABHA Ready — Government Integration

ABDM COMPLIANT

Fully compliant with Ayushman Bharat Digital Mission. Create ABHA IDs at registration, link to Health Lockers, enable patient-controlled record sharing.

ABHA ID	Health Locker	Consent	PMJAY
At registration	PHR connectivity	Patient-controlled	Future ready

2 RECEPTION & FRONT DESK

Speed + Control

Patient Operations

- Ultra-fast registration
- Appointment calendar
- Walk-in token generation

Queue & Beds

- Live department queues
- Real-time bed availability
- Room allocation view

Financials

- Integrated billing desk
- Estimate generation
- Advance & refunds

3 DOCTOR MODULE

Clinical Adoption

Smart Dashboard

- **Today's Summary** — OPD, IPD, revenue
- **Live Queue** — Real-time updates
- **Patient 360** — Complete timeline view
- **Calendar** — Schedule management

Clinical Tools

- **Digital Rx** — Drug interaction alerts
- **Lab Integration** — In-app results
- **Analytics** — Load, time trends
- **IP Rounds** — Ward patient view

🔥 Prescription Flexibility — Your Competitive Edge

EXCLUSIVE

Eliminate adoption resistance. Doctors choose how they prescribe — no forced behaviour change.

⌨️ Keyboard	🎤 AI Voice Scribe	✏️ Tablet + Pencil
Traditional template-based EMR entry for tech-comfortable doctors.	Speak naturally. AI converts conversation to structured SOAP notes.	Handwrite prescriptions. System digitizes, stores & syncs.

4 NURSING & WARD OPERATIONS

Critical Care Module

Ward Management

- Ward-wise patient list
- Bed allocation & transfers
- Admission assessment
- Doctor order visibility

Care Execution

- **Vitals** — Recording with trends
- **MAR** — Medication tracking
- **I/O** — Intake/output charts
- **Care Plans** — Documentation

Handover

- Shift notes
- Automated handover reports
- Discharge checklist
- Patient education docs

5 IPD & EMERGENCY MANAGEMENT

Complete Inpatient

Register	Admit	Ward Med	Services	Lab	Payment	OT	Discharge	Billing	File

Registration & Admission

- Fresh or OPD→IPD via UHID
- Patient photo capture
- Guardian & emergency contacts
- TPA / Insurance details
- Referral doctor tracking
- MLC case sheet (legal)
- Welcome SMS to patient & doctor

Clinical Operations

- Day-to-day service charging
- Ward medicine with batch/expiry
- Investigation → Lab integration
- OT sheet (pre/post-op notes)
- Multiple consultant doctors
- Room shift with reason logging
- Department transfer workflow

Billing & Discharge

- Estimate / Interim / Final bills
- Discount on final bill
- Cash / Card / UPI / Cheque / Bank
- Transaction reference tracking
- Discharge summary templates
- IP lock after discharge
- Admin unlock for post-discharge

5+ IPD FILE SYSTEM & STATIONERY

Paperless Ward

Consent Forms

- Admission consent with auto patient details
- COVID consent (Hindi & English)
- High-risk procedure consent
- Surgical consent forms
- Blood transfusion consent
- LAMA / DAMA undertaking

Pre-Printed Stationery

- Vital chart (TPR, BP, SpO^2)
- Nursing activity sheet
- Nursing checklist
- Plan of care sheet
- Initial assessment form
- Treatment sheet / medication chart

Passes & Tokens

- Gate pass for patient outings
- Attendant pass for visitors
- Auto exit pass on bill clearance
- Registration undertaking print

OT Management

- Pre-operative assessment sheet
- Post-operative notes
- OT templates (reusable)
- OT record history in MIS

6 IPD MIS — MANAGEMENT DASHBOARD

Real-Time Intelligence

Complete MIS for monitoring IPD operations — every movement, every rupee, every patient tracked in real time:

Occupancy | Patient Ledger | Collection Report | Credit List (Due Bills) | Bills & Invoices | Revisit / Search | Total IPD | Medicine Vouchers | Investigation Vouchers | Advance Bookings | Service Rate Master | Investigation Rate Master | Discharge Templates | OT Templates | Ward Medicine Master | MLC Cases | Vital Sheets | Discharge List

Occupancy & Ledger

- Live bed occupancy grid
- Quick-action icons per patient
- Real-time financial ledger
- Services vs deposits vs due

Credit & Collection

- Due bills register (by TPA/dept)
- Daily collection by payment mode
- Ageing analysis
- Voucher settlement tracking

Reports & Masters

- Service rate configuration
- Investigation rate master
- Advance booking management
- Total IPD patient history

You Get Complete Authority Over Your Entire Hospital

FULL CONTROL

Adrine is fully customizable — align every workflow, every rate card, every form, every template to match exactly how YOUR hospital operates. No compromise, no workarounds.

Custom Rate Cards & Service Master

Custom Templates Discharge & OT

Role-Based Access Staff Permissions

Your Workflow Your Rules

7 LABORATORY MANAGEMENT

Lab 360 System

End-to-End Laboratory Workflow

- ✓ **Order Intake** — Direct sync from doctor / IPD
- ✓ **Sample Collection** — Barcode tracking
- ✓ **Worklist** — Pending, in-progress views
- ✓ **Outsource** — External lab management
- ✓ **Auto-Approval** — Normal values auto-approved
- ✓ **Critical Alerts** — Abnormal result notification
- ✓ **IPD/OPD Source** — Lab knows request origin
- ✓ **Voucher Settlement** — Track outsource payments

8 RADIOLOGY MANAGEMENT

Imaging Workflow

Imaging Operations

- **Modality Worklists** — X-Ray, CT, MRI, USG
- **Scheduling** — Appointments & walk-ins
- **Technician** — Scan completion tracking
- **Templates** — Normal/abnormal findings

Reporting & Integration

- **Validation** — Radiologist approval workflow
- **Critical Findings** — Urgent escalation alerts
- **PACS Ready** — Integration architecture
- **PDF Reports** — Print-ready imaging docs

9 PHARMACY & INVENTORY

Revenue Leakage Killer

Dispensing

- Rx queue from doctors
- OP & IP billing
- Drug interaction checks
- Auto stock deduction

Stock Control

- Low stock alerts
- Expiry management
- Batch & rack tracking
- Multi-location inventory

Procurement

- Supplier master
- Purchase orders
- GRN & returns
- Complete audit trail

🤖 AI-Powered Intelligence Layer

ADRINE EXCLUSIVE

Voice-to-EMR Scribe
Doctor speaks, AI transcribes to structured clinical notes.

Predictive Analytics
Forecast OPD load, bed demand, and revenue trends.

Smart Clinical Alerts
Critical labs, drug interactions trigger instant alerts.

10 HOSPITAL ADMINISTRATION

Where Money is Saved

Revenue Control

- Real-time finance dashboard
- Dept-wise revenue tracking
- Collection reports
- Rate card & service setup

Approvals & Audit

- Discount/refund workflows
- Complete audit logs
- Staff management
- Role-based access control

Operations

- Claims lifecycle (TPA)
- Expense & petty cash
- MRD digitization
- Department configuration

11 FULL CUSTOMIZATION — YOUR HOSPITAL, YOUR RULES

Custom Service Rate Cards
Upload your Excel rate list or modify in-software. OPD/IPD rates, investigation charges, room rents — all configurable.

Role-Based Access & Security
Multi-user ERP with CAPTCHA login protection. Each staff sees only what they need. IP lock/unlock by admin.

Discharge & OT Templates
Build reusable templates for discharge summaries, OT notes, prescriptions. Save time, maintain consistency.

Custom Consent & Stationery
Add your own consent forms, assessment sheets, nursing checklists. Hindi & English support. Pre-printed formats.

Multiple Bill Formats
Summary, date-wise detail, breakup, package bill — choose the format your patients and TPA companies need.

Department & Workflow Config
Add departments, define workflows, set approval chains. The software adapts to you, never the other way around.

12 ENTERPRISE TECHNOLOGY

DEPLOYMENT	OFFLINE MODE	INTEGRATIONS
Cloud • On-Premise • Hybrid	Works offline, syncs online	Tally, LIS, PACS APIs
SECURITY	**BACKUP**	**SUPPORT**
Audit-ready architecture	Automated disaster recovery	24×7 + Dedicated RM

Why Hospitals Choose Adrine

70%	50%	30%	100%
Less Paperwork	Faster Billing	More OPD Capacity	Real-time Visibility
